

Business Mobile Banking FAQs

How much does this service cost?

There is currently no charge associated with Business Mobile Banking. However, there may be charges associated with text messaging and data usage on your phone. Check with your wireless phone carrier for more information.

Is it secure?

Yes, the Business mobile banking service utilizes best practices from online banking, such as HTTPS, 128-bit SSL encryption, or password access and application time-out when your phone is not in use. Only the phones that you personally enroll in the service can access your accounts. In addition, no account data is ever stored on your phone. And in the event your phone is lost or stolen, the service can be immediately disabled by either going online to the Mobile Banking enrollment website or calling us.

Which wireless carriers are supported?

We support all the popular US wireless phone carriers, including AT&T, Sprint, T-Mobile, and Verizon. If your carrier is not listed when you enroll, select "other" and try the Mobile Web option, or check back later, as new carriers will be added over time.

Do I need a text message or data plan?

Yes, a text message and/or data plan is typically needed, as data usage can become expensive without them. Please check with your wireless carrier for more information.

I'm not enrolled for Business Online Banking. Can I still use this?

You must complete a Business Online Banking Agreement to be given access to view your account via Business Mobile Banking.
